What The Stars Will Be Wearing After The Golden Globe Awards...

June 3, 2010 –Hollywood, CA-- Do you *want* to know the next *skin care* product celebrities will be raving about? Now you can get your hands on it before they do...**Imagine Natural Anti-Aging Skin Care in just 2 minutes a day with the power of R-Lipoic Acid.**

We are pleased to announce La Vie Celeste Day and Night Restorative Face Cream will be included in the **Celebrity Gift Bags for the GOLDEN GLOBE AWARDS in January 2011.**

La Vie Celeste was designed for busy, successful professional women **who want a simple skin care regimen.** Unparalleled in the beauty industry, now you can restore, nurture and soothe even the most sensitive skin in only seconds a day all at an unbelievably **affordable price.**

Formulated by Dr. Teri Dourmashkin, **La Vie Celeste Skin Care** is an all natural anti-aging skin care line specifically developed to reduce the appearance of fine lines and wrinkles safely and easily. The line features the powerful and proven antioxidant, R-Lipoic Acid which can be found in both the **La Vie Celeste** face and eye creams. Research indicates that R-Lipoic Acid has superior anti-aging benefits and is more effective than the more commonly used Alpha Lipoic Acid.

Dr. Dourmashkin uses only ingredients which enhance the overall health and beauty of your skin. The **La Vie Celeste** skin care system contains no toxic ingredients of any kind. It is free of harmful preservatives, colors, artificial fragrance, phthalates, PEG compounds, and petrochemicals of any kind.

Women want high end luxurious products with real results they can see and feel. Spending \$100.00 or more on a skin cream is not doable for many women, particularly in this economy. And even for those who can afford it, they may opt to buy products which give them more value. The **La Vie Celeste** collection represents the best of both worlds; high end luxury without the exorbitant price tag. This really is luxury for less," doctor Dourmashkin stated.
